Organizational Assessment

Session 3: Healthy, Equitable Communities and Community Engagement

15. Is there motivation among leadership, clinicians, researchers and staff of the cancer center to learn about the history of the community served and the conditions that have contributed to racial inequity and poor health outcomes? Please explain.

16. Is there an awareness among leadership, clinicians, researchers and staff of the cancer center of the importance of defining terms (i.e. racial equity, structural racism) and socializing such language across the enterprise? Please explain.

17. Is there motivation among leadership, clinicians, researchers and staff of the cancer center to explore how to redeploy assets as a means of building the community's capacity to address racial inequities? Please explain.

18. Does your cancer center regularly provide information to the public through print materials and activities highlighting your efforts to provide culturally responsive care to all patients/clients? How so?

Organizational Assessment

19. Does your cancer center implement tools to assess and communicate about the social determinants of health (e.g., PRAPARE, Z-codes)?

20. Has your cancer center developed ways to invest in the community (e.g., hospital with farmers market, child care, renovated housing)? How so?

21. Thinking about advancing health equity for populations in our catchment area who have historically experienced the worst cancer outcomes, what do you think the biggest opportunity for growth is for the cancer center?
